

# Waste Separation and Sorting Tables

## Fiscal Year 2026

### April 2026 to March 2027

(2026 Fiscal Year: April 2026 to March 2027)

未来へつなぐ ゼロカーボン!  
ZERO CARBON CITY  
SASEBO

Place burnable waste, non-burnable waste, and recyclables at their respective waste stations **by 8:00 AM** on their designated collection days.

■Mr. Duston

## Disposal of Rechargeable Batteries such as Lithium-ion Batteries

**STOP!**

Rechargeable batteries such as lithium-ion batteries can catch fire when subjected to strong impact.

In August 2025, a fire believed to be caused by a lithium-ion battery occurred at the Western Clean Center. To prevent such fires,

**do not dispose of rechargeable batteries with regular household waste.**

Products using rechargeable batteries require different sorting methods.

Please refer to the special feature article on the back cover.

## Days when collection is closed

- Sundays
- May 3 (Sun) to 6 (Wed)
- Wednesday, September 23
- Tuesday, November 3
- Year-End and New Year Holidays  
Thursday, December 31 - Sunday, January 3

※ Disposal at the Clean Center is also unavailable during these periods.

※Excluding Uku from 12:00-13:00

# How to dispose of household burnable/non-burnable/oversized waste

## Burnable and non-burnable waste information

**1** Use a coupon to purchase Sasebo City designated garbage bags at a discount price.

### About the coupon

- One coupon is good only for one pack. The number of trash bags varies with the sizes. 5 coupons/citizen will be distributed from November to December every year. There is no redistribution in the year.
- Without the coupon, the additional disposal fee of ¥840/pack will be charged.

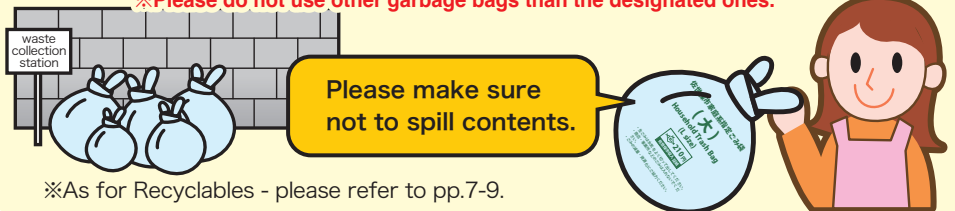

Size	Dimensions	With coupons (bags)	Without coupon (bags and disposal fee)	Packs per pack
<b>L</b>	800mm x 650mm	¥40	¥880	4 garbage bags per pack
<b>M</b>	700mm x 500mm	¥48	¥888	6 garbage bags per pack
<b>S</b>	600mm x 400mm	¥72	¥912	12 garbage bags per pack
<b>MINI</b>	500mm x 360mm	¥96	¥936	24 garbage bags per pack

**2** Separate garbage and resources according to the sorting chart on pages 3 to 8.

**3** Put your waste in the designated bag and take it to the designated collection station. Please make sure to tie or tape up the bag shut.

※Please do not use other garbage bags than the designated ones.

※As for Recyclables - please refer to pp.7-9.

For more information, Call Sasebo city Waste reduction promotion div. ☎ 0956-32-2428

# About Sasebo City's designated garbage bag purchase subsidy ticket system

How do I use the designated garbage bag purchase subsidy ticket?

When buying designated garbage bags at supermarkets and convenience stores, please take out the subsidy ticket before paying at the cash register. The price will be 840 yen less than the displayed price.

Can I buy many garbage bags with one purchase coupon?

Only one set of garbage bags can be purchased with one purchase coupon.

Where can I get a purchase subsidy ticket?

Purchase subsidy coupons will be mailed from City Hall. Distribution occurs annually from late November to late December. Coupons are distributed once per year, with five coupons per person.

## Sasebo City implements "two-stage waste charge system"

Designated garbage bag prices		
Per 1 pack	Waste disposal fee	Cost for the Garbage bag
Large (4 bags)	¥840	¥40
	¥880	
Medium (6 bags)	¥840	¥48
	¥888	
Small (12 bags)	¥840	¥72
	¥912	
Mini (24 bags)	¥840	¥96
	¥936	

When a Designated garbage bag purchasing coupon is used...

Designated garbage bag prices (Designated garbage bag purchasing coupon)		
Per 1 pack	Waste disposal fee	Cost for the Garbage bag
Large (4 bags)	¥0	¥40
	¥40	
Medium (6 bags)	¥0	¥48
	¥48	
Small (12 bags)	¥0	¥72
	¥72	
Mini (24 bags)	¥0	¥96
	¥96	

## Designated garbage bag coupons

Use the coupon on purchase and the disposal fee of ¥840 will be exempted. One coupon is good only for one pack.

Please choose suitable sizes for your needs. If you buy too big bags, you will immediately run out of the coupons. There is no redistribution in the year.

\*This is an advertisement. (If requesting "transportation of five types of home appliances to Yamaguchi Store," please contact a company licensed for general waste collection and transportation in Sasa Town.)

# Burnable waste **Collected twice a week** Use designated garbage bags

Only items that fit into one designated garbage bag are accepted. Items that do not fit even in a large bag (45L) are considered oversize garbage. Please see page 9 for how to dispose of oversize garbage.

## Designated garbage bags are not required for the following items.

### Disposable diapers (for adults and children)

Put diapers in a transparent bag and write "Kamionutsu" on it by using a permanent marker pen.

Pet animals' diapers & toilet pads have to be put in the designated bag as "Burnable".

### Yard waste

As for pruned wood, bamboo, and their branches, Cut them shorter than; 80cm in length, 15cm in thickness, 10cm in diameter. Bundle them no higher than 30cm. As for leaves and other gardening waste such as mown grass, put them in transparent or semi-transparent bags.

For disposal of reed screens, bamboo blinds or wooden items that you bought or made, Use designated garbage bags.

When there is a large amount of perishable garbage in the station, plant-waste collection will be postponed.

## Important points on packing waste

### Kitchen waste

Please drain food scraps well, soak oil on paper or cloth, put it in a plastic bag and tie the mouth tightly.

### Fireworks, disposable lighters & disposable heat pack

To prevent fire accidents, please make sure to soak sparklers / firecrackers before disposal. Before you dispose of lighters, Use up or empty the gas. Cool down heat packs before disposal.

Are you throwing away recyclable items like old paper, empty boxes, and plastic bottles as "burnable garbage"? Reducing burnable waste also saves on designated garbage bags.

For disposal of Ink cartridges made by brother, Cannon, Epson or HP, use the collection box at the post office listed below.

You can dispose of ink cartridges as "Burnable", either.

<https://www.inksatogaeri.jp>

Collection boxes are located in the following post offices

- Sasebo Post Office,
- Sasebo North Post Office,
- Sasebo West Post Office, Hiu Post Office,
- Haiki Post Office, Mikawachi Post Office
- Hario Post Office, Yoshii Post Office
- Emukae post office
- Shikamachi Post Office

Food trays and other items that can be returned to the store should be washed clean and returned to the collection box at the store where they were purchased.

**Caution!**  
Some shops do not accept return of trays. Please check beforehand.

# Non-Burnable waste **Collected once a month** Use designated garbage bags

Any item larger than the L-size(45ℓ) designated bag is “Oversized” waste. (See p.2)

**!** Please double-bag your waste with transparent bags so that you don't break the designated bag by sharp edges. You can put the following items all together in one designated bag.

## To prevent accidents

### Broken or sharp items

Wrap them in paper, put them in a bag and write “ケケン” (Danger) on it, and put into the designated garbage bag.

### Aerosol cans, Stoves and Fan heaters

Kerosene from stoves and fan heaters should be burned off and used up. If kerosene is left in the garbage, it may cause a fire on the collection truck or disposal facility. If you cannot burn the kerosene, a small amount can be soaked up in a cloth or paper and disposed in the burnable trash. If there is a large amount of kerosene remaining, pump it out and consult a gas station for pickup. Before disposal, spray cans and cassette stove gas cylinders should always be used up, drained of their contents, and then punctured outdoors in a well-ventilated area free from fire.

Wastes no longer than 1 meter are acceptable as “Non-burnable”. Use the L-size designated bag for such waste as umbrellas or single golf clubs.

## Examples of Non-burnable wastes

\*Paint, oil, engine oil, etc. can be soaked into cloth or paper and be disposed of as burnable garbage. You can also dispose of the soaked items in burnable garbage. If the container it was in is made of metal dispose of it as non-burnable garbage; if the container is made of plastic, dispose of it as burnable garbage.

For instructions on how to dispose of rechargeable batteries such as lithium-ion batteries, please refer to the back cover.

# Recyclables

Collected twice a month

# Designated garbage bags are NOT needed

## Cans

- Separate aluminium cans and steel cans.
- \*Please check recycle icons on cans. Please do **not crush cans**. (Crushed cans may interfere with processing.)
- \*Please dispose of **oily cans, metal lids, spray cans, cassette cylinders and so on, as "Non-burnable waste."**

## Bottles

- Bottles such as beer bottles, Issho (1.8liters) bottles, Western liquors, energy drinks, jams, preservable food and instant coffee bottles are recyclables.
- \*Please **dispose of bottles with oil, or oil based salad dressing, as "Non-burnable waste."**
- \*Metal caps are "Non-burnable waste" while plastic caps are "Burnable waste".
- \*Single serving Sake bottles are "Non-burnable waste".

## PET bottles

\*Please do not crush them. Crushed items may interfere with the press molding process. Press molding may be hindered.

- Rinse lightly and **remove cap and label**. Bottles without the recyclable symbol, and caps and labels that have been removed **should be disposed of in Burnable Garbage**.
- Please also use the collection machines at some 7-Eleven stores in the city. (Please see page 12)
- Containers for cooking oil, sauces, detergent, egg cartons, etc. should be disposed of as Burnable Garbage

## Used cloth/ clothes

- Recyclable old clothes and cloth (towels, curtains, etc.) (that can be sold at second-hand stores)
- \*Do not let materials get wet on rainy days. Dispose of by placing in a clear plastic bag.
- \*Socks, underwears, torn, dirty or wet clothing items are "Burnable waste".

## Fluorescent lamps & Mercury using meters for home use

- Fluorescent bulbs less than 40W and up to 120cm in length (including the bulb type fluorescent tube). Be careful not to break it. Wrap broken items in a piece of paper, put them in a plastic bag, and label clearly as broken glass.
- Mercury thermometers and mercury sphygmomanometers are "Recyclables". Put them in a box, so that it does not break, write "mercury thermometer" or "mercury sphygmomanometer" on the box and put it out as recyclables. If Mercury -using products break, do not use a vacuum cleaner and do not touch it directly. Make sure to wipe it off with thick paper, etc., and put it out in a plastic bag.

## Dry cell Batteries

- Put used dry cell batteries and button batteries into the pail prepared for them.
- \*Sasebo city will not collect rechargeable batteries. Please consult your retailer or use the collection boxes at home electronics mass retailers.

## Waste papers

\*Please see page 12 for details.  
\*Erase personal information.

- Papers with smells or stains are "Burnable waste".
- Bind the same kind of paper, tie up tight.
- Do not let materials get wet. Please place in a clear plastic bag.
- Place small paper scraps in a paper bag, candy boxes, tissue boxes, paper no smaller than a business card.

Newspapers, Advertising fliers

Drink cartons

Remove caps, inner pour spouts which can be burned. Liquor cartons and paper cartons with silver lining are burnable garbage.

## Electric appliances

\*Erase personal information such as individual pics and telephone numbers.

- The following household appliances are "Recyclable", camera, portable music player, portable DVD player, video game, electric dictionary/calculator, mobile/fixed-line telephone, video camera, video deck, and radio-cassette player.

## Notice for disposal recyclable items

- Separate items by type, put them into transparent and semi transparent bags for disposal.
- When disposing of cans, bottles and plastic PET bottles, empty the contents, rinse out, and do not crush.
- \*Please do not dispose of cans or bottles that contains cigarette butts.

- Caps of bottles and PET bottles:

# Recyclable items Collection Schedule

※In some neighborhoods, recyclables may only be collected once a month. Please check with your neighborhood association.  
Be sure to follow the agreements of the neighborhood association.

# Oversized waste

## Door-to-door paid collection application Internet Phone

※Please confirm the fee at the time of application.

Waste from households that does not fit into the designated garbage bag (large: 45l) and does not exceed 60 kg. Oversize garbage from companies, offices, and other business establishments will not be collected. You can request up to 5 pieces at a time. If you have a large number of items, please bring them to the Clean Center or ask a general waste collection and transportation licensed company to collect them.

Before putting unwanted items in the trash, why not sell them and reuse them?

Please see page 13 for more details.

## Reservation & Inquiry

### Application by phone

Oversized Waste Center ☎0956-46-5300  
Uku Stockyard(Uku Area Only) ☎0959-57-3238

Date/Time

Monday - Friday  
(Exc. holidays)  
8:30~17:00

※Excluding Uku from 12:00-13:00

### Online application

You can apply 24 hours a day from your smartphone or computer.

## 1 You can apply online or by phone

### ● Apply online

You can apply from your smartphone or computer. The deadline for applications is 10 days before the desired collection date.

<https://sodai-sys.jp/sasebo/users/>

### ● Application by phone

Oversized Waste Center ☎0956-46-5300  
Uku Stockyard(Uku Area Only) ☎0959-57-3238

We accept requests up to 1 to 3 days prior to the desired collection date.

We will ask you the following information when you apply.

Name, address, phone number, desired collection date, road conditions near your house. Type, number, and dimensions (length, width, depth, etc.) of bulky waste.

## 2 Over-sized waste stickers/tickets can be purchased at convenience stores or supermarkets for 520 Yen each

- ¥520 ..... 1 ticket
- ¥1,040 ..... 2 tickets
- ¥1,560 ..... 3 tickets

\* If you cannot carry your oversized waste out of your house by yourself, you can use our home-visit help service for another ticket of ¥520.

## 3 Stick the ticket(s) on the bulky and put it outside of the front door.

\* Cut the sticker stub and keep it until the collection is done.

## 4 Collection staff will pick up the item.

Your presence is necessary; when you use home-visit help service, when the collector needs to request you to unlock the automatic lock system. Otherwise, No presence is necessary.

● Oversized waste in good condition may be reused. If you do not want items to be reused, please let us know.

## Information about bringing garbage, waste and recyclables into the Clean Center.

You can bring your household waste and recyclables to the clean center or Uku stockyard during the operating hours. (See front cover.) In this case, the disposal fee will be ¥450/50kg, if you do not use the designated bag or oversized waste ticket.

	Designated Waste Bag	Non-Designated Bags	
Burnable	Free	~50kg	50kg~
Non-Burnable		Additional fee for another 10kg:	
Oversized waste		450yen	90yen
Recyclable Items		Free	

Contact Date/Time Monday - Saturday 8:30~17:00

Clean Centers Open Hours - Exc. holidays  
※Excluding Uku from 12:00-13:00

● Sort your waste & recyclables beforehand. If you do not use the designated bag, use a transparent or semi-transparent bag so that the contents can be seen.

## Information about the Disposal of the 5 Major Household Appliances

**Keep our city clean.  
Illegal dumping and littering  
are strictly prohibited.**

The 5 Major Household Appliances **can not be disposed of at neighborhood collection stations or Clean Centers.** Please contact the place of purchase for disposal. Otherwise, you can bring them to the designated collection locations below with a electronics recycle You can by it at any post office.

Five Major Household Appliances are required to be recycled based on the Home Appliance Recycling Law. These home appliances contain not only useful resources, but also chlorofluorocarbons (CFCs), which deplete the ozone layer and cause global warming, and lead, which is harmful to the environment. Consumers are required to pay a recycling fee, dealers are required to take them back, and appliance manufacturers are required to recycle them.

**Do you know where you bought it ?  
Or Will you buy a new item to  
replace it ?**

**Yes** → Ask the shop to take it. You need to buy a recycle ticket.

**No**

**Ask the appliance shop to take it.**

**Yes** → Some shops will kindly take it even though it is not where you bought it. You need to buy a recycle ticket.

**No shops  
take it.**

**Can you bring it to designated  
collection station by yourself ?**

**Yes** → The designated collection stations are shown below; Yamaguchi Shoten & Sasebo Daikyū Unyu. You need to buy a recycle ticket.

**No** → Ask a licensed non-industrial waste transporter to bring it to the designated collection station. You need to buy a recycle ticket. You also need to pay a transportation fee.

### Paying the home appliance recycling fee at the post office

First, please make sure of the following before going to the post office.

TV: Manufacturer and screen size (15-inch, 32-inch, etc.)

Refrigerator / Freezer: Manufacturer and capacity

Other: Manufacturer

A transfer fee is also required to pay the recycling fee at the post office. Please fill in the required items such as the manufacturer code on the home appliance recycling ticket.

### When asking a general waste collection and transportation company to carry

Please search for "General Waste Disposal Companies" on the Sasebo City website.

The URL is <https://www.city.sasebo.lg.jp/kankyo/haisid/ippan-mebo.html>.

Please select from the General Waste Collection and Transportation Companies List.

Alternatively, refer to the advertisements at the bottom of pages 2, 4, 6, 8, 10, and 14 of the Garbage Collection Calendar. Transportation fees vary by company.

For inquiries

Contact an approved waste collection contractor or the Promotion of Waste Reduction and Disposal Department

For inquiries about fees, etc., please contact the Home Appliance Recycling Ticket Center ☎0120-319640 HP:<https://www.rkc.aeha.or.jp/>

Waste Reduction

### Disposal of motorcycles and scooters

There are four main ways to dispose of motorcycles and scooters.

- Sell to a specialized buyer
- Consult with a store that handles discarded motorcycles
- Take to a designated collection point for motorcycle recycling (Yamaguchi Shoten)
- Ask a waste collection company

Motorcycles and scooters can be repaired or refurbished, and are said to be highly reusable products that can be reused for parts if disassembled. When using the motorcycle recycling system, you must check whether it is eligible. Store that handles discarded motorcycles: <https://www.zenkeijikyo.or.jp/nirin/shop/> (Transportation fees may apply)

Please also contact the store that handles discarded motorcycles.

**Authorized dealer** **Yamaguchi Shoten Inc.** 107-1 Ōshige-men, Saza-cho  
☎0956-42-7500

**Contact** **Motorcycle Recycling Call Center**  
☎050-3000-0727  
9:30 ~ 17:00 (Closed Saturdays, Sundays, National Holidays, end/New Year's holidays/breaks)

For information about the disposal of motorbikes, check out <https://www.zenkeijikyo.or.jp/nirin/shop/> There is no fee for recycling but there may be a transportation fee depending on the dealer.

### Propane Tanks (Excluding cassette cylinders)

**Contact** **Nagasaki Prefectural Liquefied Petroleum Gas (LP Gas) Association**  
☎095-824-4387  
(Date/Time Monday-Friday 8:30-7:30)

### For disposal of your syringes and injections, consult the pharmacy or hospital.

If you need to dispose of your bag for peritoneal dialysis, please contact the Waste Reduction Promotion Division for details.

### Construction Waste/Scrap Wood, Blocks, Concrete, Stones, Soil, Bricks

To dispose of, please contact a Sasebo city approved contractor.

### For disposal of FRP vessels, ask the vessel dealer to recycle them. A fee is required.

Site Japan Boating Industry Association  
<https://www.marine-jbia.or.jp/recycle/index.html>

## Soil and waste from businesses or industry

Sasebo city does not collect industrial waste. Consult licensed transporters. As for large amount of wastes from house moving, you can bring them to the clean centers by yourself or consult licensed transporters

Trash from moving (house)  
Business-related waste

**Contact**  
Contact the waste Reduction Promotion Division for details.  
☎0956-32-2428

### Ask a dealer for fire-extinguisher disposal. You need disposal fee.

Access the URL on the right. → <https://www.ferpc.jp/>

The fire extinguisher is disposed of by the Japan Fire Extinguisher Industry Association in cooperation with local sales agents. To search for a window near you, go to <https://www.ferpc.jp/accept/sp/>. Recycling fee etc. are required.

When to request pick-up? → **Special Contact Desk**  
When to bring directly? → **Special Contact Desk** OR **Designated collection location**

There are approximately 5,000 fire extinguisher dealers located throughout Japan that can pick up fire extinguishers.

The Fire Extinguisher Manufacturers Association has set up 210 locations throughout Japan.

### Personal computers no longer used at home should be recycled

**Collection by PC manufacturer** No collection or application accepted by local government

Computer makers and manufactures will pick up and recycle old computers. To dispose of old personal computers, please contact directly to the main desk of the computer maker. Applications can be found on the homepage.

**PC** リサイクル

Devices:  
-Desktop or Personal Computer  
-Laptop  
-CRT Display  
-CRT Display (Integrated) Computer  
-LCD (Liquid Crystal Display)  
-LCD Display (Integrated) Computer

Personal computers with the PC recycling mark will be recycled by the manufacturer at no additional cost. Personal computers that do not have the PC recycling mark require a fee to be recycled.

**PC3R**  
General Incorporated Association  
PC 3R Promotion Association

As for home-built computers and those made by a company in bankruptcy, the PC3R Promotion Association will collect the recycle fee and the machines. You will need to pay a recycle fee.

TEL:03-5282-7685 FAX:03-3233-6091

### Free collection by courier service by a government-authorized business: ReNet Japan Co.

Computers used at home can also be collected by nationally certified company ReNet Japan Co., Ltd., via courier service. You can also collect peripherals such as displays, printers, scanners, and small home appliances other than the 10 items collected in Sasebo City along with the computer. Up to one box, including the computer, is free. The size of the box must be 140 cm in total, with three sides together, and it must weigh up to 20 kg. When requesting data erasure, if the computer itself is not included, or if a CRT display is to be collected, a fee will be charged. Please check carefully before applying.

**ReNet Japan** search

# Notes on how to dispose of garbage

## How to dispose of waste paper

Please make sure to sort the various types of waste paper appropriately!

Paper wastes other than those on page 7 are also recyclable. Please sort as shown above and reduce your burnable garbage.

### Attention

Most paper larger than business cards are recyclable, but put the following paper out as "Burnable".

Carbon paper, non-carbon paper  
Iron-on seal paper,  
synthetic slip paper

Duplicate forms, receipts

Thick postcards

Notifications from banks etc

Coated paper and processed paper

Sealed and lined beverage cartons, paper cups, paper plates, photos, albums, inkjet photopaper, alcoholic beverage

Alcoholic beverages in paper containers with a silver inside layer  
iron-on transfers/  
fabric paper and such.

Paper that has been stamped with gold or other metals

Paper that contains gold or silver

Dirty or smelly paper

Wet paper, paper boxes for incense sticks, detergent, or pizza, etc.

## Drain and dispose of food scraps!

① First of all, do not get wet.

Vegetable peels from cooking should be placed directly into plastic bags to avoid getting them wet!

② Drain water thoroughly

If something gets wet, give it a squeeze!

③ Dry before discarding.

Placing them in a well-ventilated area will reduce both moisture and weight!

The following three points are important for food waste disposal.

## Caution!

○ For safe disposal of mercury using items.

In order to avoid breakage, put them in a box. Label the item name: "Fluorescent lamp", "Mercury Manometer" and "Mercury Thermometer", for example. Mercury using wastes from households are "Recyclable".

○ Empty spray cans before disposal

If gas remains, spray cans may explode in the fragmentation machine.

Please vent cans before disposal, in the open air, and empty them completely.

Spray cans are "Non-burnable".

○ Sasebo city does not collect rechargeable batteries.

You cannot leave them in the collection station.

The clean centers do not accept them, either.

For disposal of rechargeable batteries, use collection boxes at mass-electric-stores or consult your retail dealer.

## About PET Bottles Recycle plastic bottles into PET bottles!

Plastic bottles have traditionally been recycled into molded products or transformed into sheets, films, fibers, and other goods. However, recycling these products again is difficult, and most have been disposed of through incineration or similar methods.

On the other hand, the "bottle-to-bottle" recycling initiative, which recycles PET bottles back into new PET bottles, enables the semi-permanent circulation of PET bottles as a resource. This reduces the consumption of resources and contributes to lowering CO2 emissions.

Seven-Eleven has placed PET bottle recycling machines at its stores to promote its "Bottle to Bottle" initiative. Sasebo City is also collaborating on this initiative, cooperating in the effective utilization of resources and other areas. ※Please note that some stores do not have PET bottle recycling machines installed.

The procedure is the same as for disposing of them at a resource station. Removed caps and labels are Burnable Garbage. You can also earn points with your nanaco card.

# Utilization of unwanted household items

If you dispose of it as "garbage", you will be charged a "fee", but if you reuse or recycle it, you may be able to sell it. If you throw it away, it's "garbage", but if someone uses it, it's a "resource". It's an initiative that is kind to both the environment and your wallet.

Still usable, but no longer needed

Reuse Recommendations!  
There are many ways to do it!

Dressers, cupboards, tables, chairs, bookshelves electrical appliances suits, shoes, children's clothing, stoneware, stuffed animals, stationery, precious metals, brand-name goods

One way is to list your items on flea markets and apps, but we also recommend using the following recycle stores.

## ● Apply online

### Oikura?

Selling unwanted items may be easier and faster than throwing them away!

Here's what's convenient  
3 good points about using Oikura.jp

- ✓ Large and heavy items are also eligible for purchase.
- ✓ You can compare the price and choose the one you want to buy.
- ✓ Same-day pickup available at the earliest

Multiple purchases  
Sell easily by making a bulk appraisal request

- Step 1 Enter the product information of unwanted goods and request an appraisal
- Step 2 Compare the appraisal results received and choose a store to buy
- Step 3 Hassle-free and wallet-friendly disposal of unwanted items is complete!

Access with your smartphone

## ● Recycle Shop in the city

The products handled and the method of acceptance will vary at each store. Some items may not be handled due to their condition or age, so please call first to inquire.

○We are looking for furniture, home appliances, sundries, clothes, tools, books, etc. that are still usable but no longer needed and would like to buy them used.

YouTube (Sasebo Eco Channel)

## Please understand and cooperate with the Cleanliness Promotion Committee!

The following are the duties of the Clean Promotion Committee members, who act as liaisons between City Hall and citizens.

- The following is the work of the Clean Promotion Committee members, who act as a link between City Hall and citizens.
- Education and guidance on how to properly dispose of garbage.
- Guidance on the prevention of illegal dumping.
- Instructing people on how to dispose of garbage on their own.

Follow the rules and keep a clean city!

Let's separate garbage at home.

# Sasebo City Environment Department's Efforts to Reduce Food Loss

## We are looking for cooperative stores to reduce food loss.

We are looking for stores that can cooperate in at least one of the following five areas. Cooperating stores will be introduced on the city website.

1. Asking customers when they order so that they can choose the amount of food they want to eat, and providing smaller portions and smaller menus.
2. Provide take-out service for leftover food.
3. Promotion of the "3010 Movement" (encouraging people to eat more, displaying posters, etc.).
4. Promote discount sales of imperfect products and products that are close to their expiration dates.
5. Provide unused food to food banks and other organizations that wish to use it.

### Cooperating stores for food loss reduction (As of January 13, 2026)

Aizen-tei, IT-X Co., Anko-ru, Izakaya Kojiro, Isuzu, Kacchan, Kappo Funatsu, Kitchen Akari, Kujuukushima Kaisen Ichiba-Kaiyuu, Kujukushima Sempei Honpo-Sasebo Sales Department, Gyuemon (Daitoten), Gyuemon (Yonkacho Branch), Grand First Inn Sasebo, Koran, Komatsu Shoten, Saikaibashi Enchi, Sasebo Yakult Co., Chef's Magokoro House San Marino, Shibata Shokudo, Jogenro, Jyono Shokudo, Shoya, Seven-Eleven(in front of Sasebo Chuo Hospital), Sennari shokudo, Sousaku Ryori Jyuhachiban, Daizen, Tenten Ramen, Pasta Cafe Eat,Passion, Parfum Bakery, First Inn Haiki, Fukumusubi, Tashiro Bakery, Poivre, Maruhachi Shokudo, Muta Shoten, Meshidokoro Yoshiki, MenOh Sasebo, Mendokoro Akira(Gobangai Branch), Mendokoro Akira (Haiki Branch), Momijinokaori, Lucky's Kashimae Branch, Leo Plaza Hotel, Restaurant Kuu, Restaurant Sorrento, Restaurant Honjin

## Sasebo Food Drive

We are conducting a "food drive" to deliver unconsumed food from homes and businesses to children's cafeterias. The target food items are (1) unused food, (2) food that has not yet been consumed, and (3) food that has been donated. Eligible food items are: (1) unopened, (2) with a shelf life of at least one month, and (3) can be stored at room temperature.

- (Example)
- Grains (flour, beans, noodles, etc.)
  - Seasonings, cooking oil
  - Powdered milk
  - Preserved foods (dried foods, retort pouches, canned foods, bottled foods)
  - Beverages (tea, juice, etc.)
  - \* Alcoholic beverages are not accepted

### Reception area and inquiries

Waste Reduction Promotion Division, Environment Department, Sasebo City, 1-8 Inari-cho 0956-32-2428 8:30am to 5:15pm (except weekends and holidays)

# ! Caution! Fires caused by rechargeable batteries like lithium-ion batteries are occurring frequently.

## Rechargeable batteries such as lithium-ion batteries

Rechargeable batteries are batteries that can be used repeatedly by recharging them. They are used in various devices such as smartphones and game consoles.

The main types of rechargeable batteries include lithium-ion batteries, nickel-metal hydride batteries, and nickel-cadmium batteries.

These rechargeable batteries, especially lithium-ion batteries, can catch fire due to strong impacts such as crushing or compression.

If a fire occurs in a collection vehicle or at a clean center, the facility will shut down, significantly impacting citizens' lives. Therefore, we ask for your cooperation in proper sorting.

## How to Dispose of Rechargeable Batteries

Please dispose of mobile batteries, lithium-ion batteries, and similar items using one of the following methods:

- ① Ask the store where you purchased it to take it back.
  - ② If the store where you purchased the item cannot accept it, or if you do not know the store, consult a JBRC partner store (use the recycling box).
  - ③ If the item cannot be picked up at the store due to expansion, etc., please contact the Clean Center.
- JBRC Partner Stores in Sasebo City ※Information current as of November 2025. Please check the QR code for the latest participating stores.

- Green Electric Appliance Co. (6-10, Tawara-machi ☎0956-23-0286)
- Azusankou Electric (5-15 Minesaka-cho, ☎0956-24-1055)
- Yamashina Electric (41-1 Matsubara-cho, Tel: 0956-49-6960)
- Yamada Denki Best Denki Sasebo Main Store (1857-2 Daito-cho, ☎0956-33-1627)
- Yamada Denki Best Denki Nagasaki Yonka-cho Store (4-7 Motoshima-cho, ☎0956-23-1333)
- Yamada Denki Techland Sasebo Main Store (22-18 Fujiwara-cho, ☎0956-20-1161)
- Kyushu K's Denki Sasebo Store (666-10 Daitō-chō, Sasebo City, ☎0956-76-7922)

When using the recycling box, please insulate the terminals by applying electrical tape or similar material.

## Separation of Products Using Rechargeable Batteries Such as Lithium-ion Batteries

※Disposal methods vary by product. Please refer to pages 5 and 7.

**Non-burnable waste**  
(limited to items that fit in designated garbage bags)

Tablet, Handheld fan, e-cigarette, Wireless earbuds, Electric razor, Cordless vacuum cleaner etc.

※If the battery can be removed, be sure to remove it.

**Recyclable Materials**  
(Small Household Appliances)

handheld game console, video camera, Digital camera, Mobile phones and smartphones (Please also use in-store collection at various retailers), Portable music player

※If the battery can be removed, be sure to remove it.

**Items that are neither non-combustible waste nor recyclables**

Mobile battery, Electric-assist bicycle

- For mobile batteries, consult the store where you purchased them, or use the recycling boxes at JBRC partner stores. If the store cannot accept them, please contact your local Clean Center.
- Remove the battery from your electric-assist bicycle and contact the store where you purchased it. (See page 11 for details.) The bicycle without the battery is considered bulky waste.

## Outdoor burning of waste is prohibited by law!

Unable to open the windows on nice days.

Bad smell sticks to clothes.

Suffering from a waste burning smoke.

Those complaints are often made.

Open burning creates a nuisance to neighbors.  
Some materials can be sources of dioxins.

## Violations

Imprisonment for up to 5 years

Fine of up to 10 million yen

Both

When you see illegal disposal of waste, please call!

## Illegal dumping is a crime!

Keep good manners and keep Sasebo beautiful!

Cans, cigarette butts, electric appliances and house-moving waste are continually dumped illegally. Any waste has to be disposed of in accordance with the rules. Please keep the rules and keep our Sasebo clean.

"Rule" s confusing!  
"Don" t want to pay the fee!"

Illegal disposal

• Ecological destruction  
• Spoiling a view  
• Bad smell and ground water pollution

Pollution issue

Harmful influence to health and life in the future.

● Sasebo City Office is trying to prevent illegal waste disposal by setting up surveillance cameras and patrolling at night.

Proper Waste-Disposal Management Office ☎0956-20-0660

Reception Hours : Mon - Fri (excluding holidays) 8:30~17:15

Let's stop littering cigarette butts completely!

Do not remove any items from neighborhood waste stations!
